Illumination distance Greater than 15m

64mm

1017mm

62mm

Installation Diagram

Firm ground or wall
1. Select the installation place, and fix the base.

2. Fix the lamp body on the base, and rotate the screws.

3. Adjust the illuminating angle, and tighten the screws.

Connection Diagram

Note: The "SYS-T1 Controller" has to be purchased separately.

SYS-T1 Controller

DC 24V

AC TO DC — AC

Brown cable connect V+
Blub cable connect V-
Yellow-green cable connect DATA

Note: When using "SYS-T1 controller", you need to add "SYS-T2 1-channel signal amplifier" for below 3 situations.
1. Connecting over 50pcs lights.
2. Connected cable length over 300m.
3. Output power over 360W.

All connected lights to "SYS-T1 Controller" cannot be over 360W, otherwise, it will damage the controller.

Attention

1. When installation, Please switch off power, and switch on power after assuring the correct wiring.
2. The light is with waterproof and damp-proof design. Waterproof rate is IP66; it can be working normally in the rain, but cannot work under water.
3. The working temperature is -20~60°C, please do not install the light on the area over 60°C to assure the lifespan.
